

THENMOZHI M

Java Backend Developer

Chennai | 9585588291 | thenmozhimaruthamuthu11@gmail.com | LinkedIn | Portfolio

Professional Summary

Java Backend Developer with 4+ years, 9 months of experience building and supporting REST APIs and backend services using Java, Spring Boot, PostgreSQL, IBM MQ, and Active MQ. Skilled in production support, technical-level ticket handling, API troubleshooting, database queries, message processing, and application monitoring using Postman, YAARC, Splunk, ServiceNow, AWS, and Docker. Experience spans the airline technology and market research domains.

Technical Skills

- **Languages:** Java
- **Frameworks:** Spring Boot
- **APIs & Tools:** REST APIs, Postman, YAARC
- **Database:** PostgreSQL
- **Messaging:** IBM MQ, Active MQ
- **Cloud & DevOps:** AWS Grafana, Docker, Linux
- **Monitoring & Support:** Splunk, ServiceNow, Grafana
- **IDE:** Eclipse

Professional Experience

Tata Consultancy Services (TCS) — Java Developer

December 2021 – Present

Star Alliance – Baggage Hub Project

December 2024 – Present

- Developed and maintained backend REST APIs for the Baggage Hub application using Java and Spring Boot.
- Worked with message-processing and messaging systems including IBM MQ and Active MQ to support reliable data exchange.
- Handled technical-level application tickets and managed technical issues through ServiceNow, investigating and resolving defects and production issues within SLA.
- Used PostgreSQL to query and modify application data, supporting root-cause analysis and troubleshooting.
- Optimized SQL queries used by APIs to improve query execution efficiency and API response performance.
- Created AWS Grafana dashboards for monitoring API performance, service health, and operational metrics, supporting faster issue identification and troubleshooting.
- Tested and validated APIs using Postman and YAARC, including request parameter and response validation.
- Analyzed application and service logs using Splunk to identify issues and drive root-cause investigation.
- Supported application deployment and environment troubleshooting using AWS, Docker, and Linux.

- Worked on a market research project for NielsenIQ, a global consumer intelligence organization focused on retail and consumer buying behavior data.
- Used the OGRDS tool to perform product coding activities in support of research data accuracy.
- Worked as a Code Analyst/Auditor, reviewing coded product information for accuracy and adherence to project requirements.

Projects

Star Alliance – Baggage Hub

Backend application supporting baggage-related workflows, including REST API development and maintenance, Spring Boot services, message processing with IBM MQ and Active MQ, PostgreSQL data operations, API testing, application monitoring, technical ticket handling, and production troubleshooting.

Education

- M.Sc. Computer Science — SNMV College of Arts and Science, Malumachampatti, Coimbatore (2023 – 2025) — 85.95%
- B.Sc. Computer Science — SNMV College of Arts and Science, Malumachampatti, Coimbatore (2018 – 2021) — 88.9%

Achievements

- Secured 10th Rank in B.Sc. Computer Science at Bharathiar University.
- Optimized SQL queries for APIs to improve query execution efficiency and API response performance.
- Received customer appreciation and the On-the-Spot Award at TCS for effective contribution and quality delivery in project activities.
- Created AWS Grafana dashboards for monitoring API performance, service health, and operational metrics, supporting faster issue identification and troubleshooting.

Additional Information

- Total professional experience: approximately 4 years 9 months (as of September 2026)
- Primary profile: Java Backend Development / Application Support
